**A Nation where the governance uses the best of the technologies to be responsive, transparent, easily accessible and simple in rules, thereby corruption free.**

- “Bringing change in thinking and in doing so”
- Democratizing the information
- Administrative reforms eliminating the procedural bottlenecks

**E-Gov Data Centre at State/ Central Level**

**“A transparent smart e-governance with seamless access, secure and authentic flow of information crossing the inter-departmental barrier and providing a fair and unbiased service to all the citizens.”**
